**What do you do if you know how to sail?**

**We love to have you join.**

Please fill out the Survey Form and send it to us.  
You should attach proof of ability to sail or describe your past experience and ask to be checked out by one of our Directors.

To use our Dinghies you must confidently demonstrate your ability to do basic maneuvers of leaving the dock, sailing close hauled and tacking, reaching, running and jibing – and docking.

CYA Basic Cruising allows you to sail 21 – 33' keel boats, which also have motors or engines, in familiar waters, in moderate winds and sea conditions by day. Again we need proof of ability to satisfy our insurance carrier.

The purpose of our club is to get people sailing again and offer boats for rent to its members.

We also have a refresher course for those that feel they want it. This is called the Pinch Hitter Course.

Welcome to the Club.
